**LARK ESHLEMAN**  
PH.D.

Link partners in Lancaster and Lebanon Counties got a 18-minute sample of Dr. Lark's exceptional insight into her work with Adverse Childhood Experiences and attachment. We're delighted now to be able to have more time with her. "Early trauma affects us through our entire life: learn how, and what to do to make life better!"

The Pennsylvania Link to Aging and Disability Resources invites its partner agencies to attend a return engagement presentation with her.

### **A FREE ZOOM WEBINAR FOR LINK TO AGING AND DISABILITY PARTNERS**

What is early emotional trauma? What is the ACE study and how do we define these experiences?

This two and a half hour webinar will address these questions and so many more as Dr. Lark's presentation will take everyone on a journey investigating the possibilities of behavioral, mental health and physical health outcomes, especially brain changes; learning to recognize resistance to healthy relationships; how does all this change for the better if we have support from trusted, healthy

caregivers?; "Healing from the inside out" and what can we do to make a difference now, if we have been living with the effects of early trauma for our lifetime?

This webinar touches on aspects of life about which so many of us have questions and concerns. Register today to be a part of this important conversation.
