

## 70 IS THE NEW 50!

### Functional Evaluation for Seniors

Pivot Physical Therapy's state of the art Functional Evaluation for Seniors consists of a series of tests that compare an individual's level of physical ability to the benchmark norms for age groups between 60-90 years old.

#### FUNCTIONAL EVALUATION AT A GLANCE

- The evaluation assesses posture, flexibility, range of motion, strength, balance, cardio endurance and gait
- Covered by most insurances
- Customized plan of care prescribed and coordinated with the individual, caretaker and physician
- Performed at Pivot Physical Therapy clinics
- Doctor referral needed
- Recommended to be performed annually in conjunction with annual wellness visits

**Call 844.PIVOT.PT to Schedule a  
Functional Evaluation for Seniors Today!**

Our goal is to assist you in achieving the highest level of  
functional ability with your activities of daily living.
